My name is Henry. I am a Senior Product Designer based in Berlin.

For the past 4 years, I have been working at Elinvar, helping to digitalise the unique selling points and core competencies for a range of wealth experts and financial advisors.

Testing, researching and watching real users engage with a product is what excites me about my job.

Experience

Senior Product Designer

Elinvar
2017-Present

I am currently working as a Senior Product Designer for b2b2c startup, Elinvar. Elinvar is a WealthTech Platform as a Service (PaaS) that aims to digitalise the entire range of wealth management processes. I have had the opportunity to work extensively with both business and consumer-facing products in this role and have seen the company grow from 30 employees to over 150 employees. I am responsible for driving user testing, maintaining design libraries, user research and delivering high-res mockups.

Research Associate

Dessau Institute of Architecture
2015-2017

I worked as both a research associate and studio assistant at the Dessau Institute of Architecture. My role required me to assist in design research, publishing and creating 2D and 3D supporting graphics and animations.,

Junior Designer

WHITEvoid Interactive Art and Design
2015-2016

Based in Berlin, WHITEvoid is a multi-disciplinary design studio with a focus on interactive art, design and installation. During my time at WHITEvoid I was responsible for producing detail drawings, diagrams renders and presentations.

Junior Designer

Studio Alto
2011-2013

Following a short course in graphic design, I had the opportunity to work in a highly successful graphic design studio. I was tasked with completing web, print and application design.

Education

Interaction Design Foundation

2020

Conducting Usability Testing
Online course

Dessau Institute of Architecture

2014-2015

Masters of Architecture
Lars Lerup Prize nominee
